Product Range

Export Quality Polyester Fabric Dyeing & Printing Plant Situated in Surat region!

..

Brief Introduction

Mony Prints was started by Shri Jitendra Gupta on 13th May 2013 with the passion of Serving the textile industry .

The company is engaged with processing of export quality dyed and print polyester fabrics Like chiffons,satins,georgettes,mosses, crapes,bsys etc.

The company is equipped with dedicated team of creative and talented people (engineers, designers, technicians etc) and the total manpower exceeds more than 400 people.

Our Turn over for financial year 2017-2018 was more than Rs 400 million.

We have partnered with SN sharmaji in 2019 in for marketing of polyester fabrics in Delhi NCR region.

Core Vision

We have earned a formidable reputation in Textile Industry because of our philosophy of providing “**Quality service at competitive rates**”. Maintaining the same core values of “**VALUE FOR MONEY SERVICES**”, to deliver same levels of **CUSTOMER DELIGHT!**

!

Products & Services

We print All 100% polyester fabrics (Water Jet & Power Loom both) including regular varieties like:

1. Georgettes – all type of georgettes ranging between 6 -14 kg
2. Crepes – American Crepe, French Crepe, Dull French Crepe
3. Satins – Japan Satin, Ultra Satin etc
4. Chiffons – all types of chiffon fabric from light to medium weight with crinkles & plan qulality.
5. Poly Voils, Poly Knits, Poly Spun, Poly Micro, Poly Moss, Poly Mesh
6. China Cotton, Texo, Torey, Leon, BSY, etc

Specialization:

All types of polyester fabric ranging between 30 gsm to 250 gsm

We can also arrange for ANY OTHER latest Polyester fabric qualities as per customer requirements.

Capacity & Capabilities

We have a capacity to print 1, 25,000 – 1, 50,000 **meters/day**

We cater to

Fabric width varying from 44" to 60" width

Capacity of printing various design repeats ranging between 64 cm - 110 cm,

Technology & Infrastructure

- **Rotary Printing Stormac Machine**

Extremely sophisticated machinery which is capable of printing complex and sharp designs at very high speeds. It doesn't require any manual intervention - delivering exceptional quality in long lengths.

- **Rotary printing machine (Laxmi)**

Fully automated robust machinery which has a proven track record of high quality printing results with good clarity & precision.

- **Flat belt printing machine**

Fully automated long design repeat.

- **Designing & Screen Exposing System**

Latest technology which enables initial designs & screen samples to be printed within a short span of time (3-4 days)

- **Preparatory Machines**

All Modern and sophisticated (*For a detailed Machinery list, please refer to Annexure 1 at the end of the Profile)

Why choose us?

- Team of 100+ technicians and managers with rich experience of 30 + years— **focus solely on Production Quality** – thereby **lowering defects** and providing better **value for money**.
- Our young and dynamic Marketing team gives **personalized attention** to each order, with close follow ups and sharper turnaround time for each order!
- The sophisticated & modern **account management & billing systems** will simplify day to day working, giving you better control and visibility about the progress of your order.

Sampling → RFD → Dyeing → Printing → Finishing → Folding & Dispatch

List of Machinery:

Type of machinery	Qty
U jet	23
Jigar	2
Drum washer	8
Softleena	2
Long jet	3
Textile Stenter	3
Zero Zero	1
Rotary Printing Machine (Stormac & Laxmi)	3
Continuous Washing system	2
Flat bed printing machine	1
Printing table (Sampling)	2
Fabric Folding machine (Automatic)	6
Loop Hager	1

Others Facilities :

1. Laboratory – for dyeing & printing
2. Color kitchen - Separate for Dyeing & Printing
3. CST for exposing rotary rolls
4. CST for exposing flat bed screen

Plant & Machinery :

Rotary Roll Exposing

Stenter

Plant & Machinery :

Rotary Printing

Jet Dyeing machine

Plant & Machinery :

Frame Exposing machine

Sampling printing table

Plant & Machinery :

Loop Hagar

Flat Belt Printing Machine

Plant & Machinery :

Drumming Machine

Fabric batching Machine for printing

Plant & Machinery :

Softleena Machine (Weight reducing machine)

Printing Washer Machine

Future Plans

- **Apart from polyester fabrics we are also planning To expand into cotton,viscose, rayon modal fabrics as well**
- **We are also planning to make this unit a composite mill, with the inclusion of weaving division as well which will allow us to make our own grey fabric.**
