

STITCHING YOUR STORY

**NISAN CLOTHSMITH**

SINCE 2018

COMPANY PROFILE

At Nisan Clothsmith, we stitch and celebrate the stories of people, fabrics & communities with our state-of-art manufacturing facilities.

# ABOUT NCLS

We are a collective of people, operating a garmenting unit on premises with a fabric processing mill. Together, we are setup in the biggest textile sourcing hub of India, Ahmedabad.

We are on a mission to create something new, building a business that makes you makes your brand feel special. We aim to inspire a sense of adventure, individuality and confidence in those who wear your clothing.

*To make your brand stories into clothing that people desire.*

# OUR WHY

We have a drive; a drive to make garment supply chain more efficient and less stressful for brands by integrating multiple stages of manufacturing under one roof. This dynamic setup gives us superior control over cardinal aspects such as designing and manufacturing, which results in a much faster turn-around time for our clients.

*We aspire to be that refreshing change that brands desire, always.*

## OUR UNIT

With all the cut to pack facilities in-house, we have over 300 machines spread out over 26,000 sq.ft. We have automated machines for Welt-pocket, Loop-setting, Bottom Hemming, Cut-Pocket, Bartack and Button Eyelet.

Additionally with our in-house laundry with a capacity of washing 50,000-60,000 pieces of garments per month. We offer brands a one-stop solution and faster TAT for garment manufacturing.

*With the right set of S.O.P's in place and our state-of-the-art facilities, we ensure your business doesn't stop, while we meet your goals.*

# SOCIAL COMPLIANCE

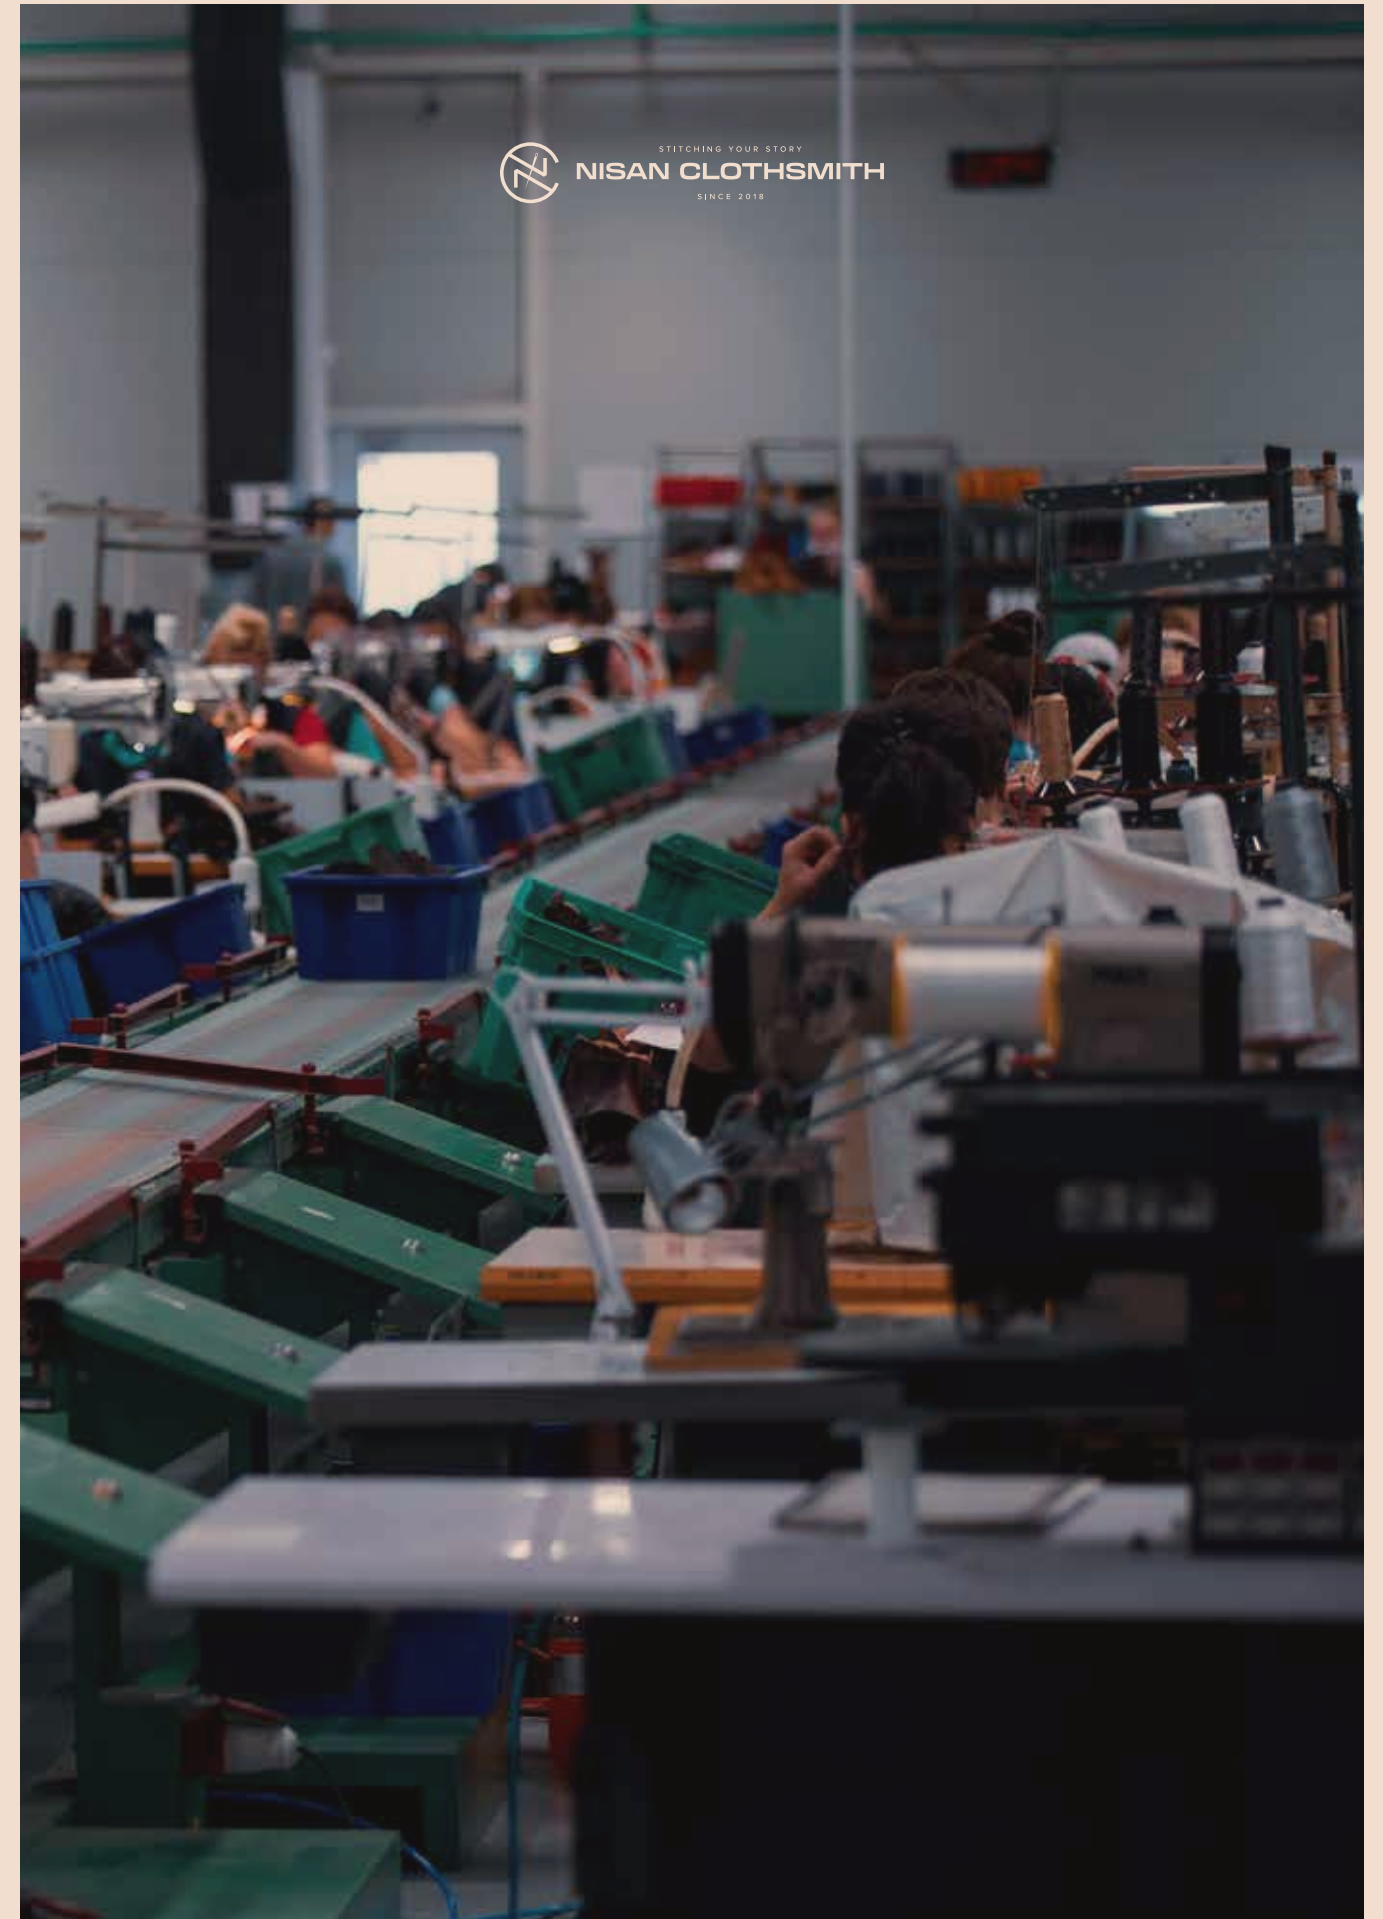

**Sedex** | Member

All of our company policies and manufacturing practices are in compliance and certified to the guidelines of SEDEX 4-Pillar standards.

Certification Body: Eurofins  
Nisan Clothsmith LLP  
Co. Ref: ZC421897616  
Site Ref: ZS421898085

*Our facilities have all the compliances to function at-par with world standards in manufacturing garment units.*

# FABRIC SOURCING

Most of the fabric that we use is procured from our own, ETI approved mill which is capable of dyeing & printing 40,000 meters every day. A mill which has an in-house design & sampling unit along with a dynamic fabric processing range from 100 – 500 GSM in 100% cotton as well as cotton blends with Polyester, Spandex, Viscose, Modal, Linen, Flax and many more. All this to provide greater variety of fabric selection for our buyers. For fabric sourced from a different mill, it is paramount for that mill to be ETI approved helping us maintain our fabric sourcing quality.

# PRODUCT PORTFOLIO
